Claim 11 is objected to because of the following informalities: The phrase added to the end of claim 11 by amendment has been struck through rather than being underlined. Appropriate correction is required.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 11-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bolte in view of Kest.

See Paper No. 9, paragraphs 3-5.

Applicant's arguments filed 10-28-03 have been fully considered but they are not persuasive. The applicants argue that the references don't show the prepolymer to have less than 0.3 wt. % readily volatile isocyanate compound. In example 2 of Bolte, he shows only 0.03 wt. % TDI.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any
